Re: **NPI Update**

---

The Federal Government has allowed States to delay implementation of the NPI until May 2008 as long as the State has a contingency plan in place.

- Do not use NPI's on Pharmacy claims until notified by OMS.
- Continue to use the Pharmacy's NABP number on claims.
- Continue to use the DEA number for the prescriber.
- PA forms should be submitted with NABP for the pharmacy.
